

IGNITE GLOBAL FOUNDATION

Annual Report

A WORD FROM THE CHAIR

I am delighted to address you as we embark on the incredible journey of Ignite Global Foundation (IGF), a venture fueled by passion, compassion, and an unwavering commitment to positive change. As the founder of IGF, I stand before you with a profound sense of purpose and responsibility. IGF started from the recognition that profound challenges persist in marginalized communities across Bangladesh. These challenges are multifaceted, encompassing barriers to education, healthcare, and skill development that perpetuate cycles of poverty and hinder the realization of potential. Our collective vision is grounded in the belief that everyone, regardless of their circumstances, deserves access to the tools and opportunities that can transform their lives. IGF is not just an organization; it is a promise to these communities. It is a commitment to stand beside them, work with them, and empower them to break free from the chains that have held them back for far too long. Our mission to provide free and equitable access to education, nutritious food, disaster resilience, healthcare, and youth development is not merely a set of objectives; it is a call to action. It is a call to bridge gaps, dismantle barriers, and create pathways for individuals to envision and craft their own secure, bright futures. It is a call to uplift and empower. We embark on this journey with a sense of optimism, fueled by the belief that positive change is not only possible but achievable through collaborative efforts. We invite you to join us in this endeavor, whether as a supporter, partner, or advocate. Together, we can make a lasting impact, fostering a more inclusive, educated, and sustainable future for the communities we serve. As we launch the Ignite Global Foundation, let us carry the torch of hope, knowing that every small step we take today contributes to a brighter tomorrow for those who need it the most.

Thank you for your support and commitment to making a difference.

Muhammad Jahirul Islam

Founder & Chairman

OUR STORY

Ignite Global Foundation (IGF) is a non-governmental organization run by a group of committed youth dedicated to the betterment of underprivileged and poverty-stricken children in Bangladesh. The organization was founded on February 2, 2016, by Muhammad Jahirul Islam, a visionary dreaming of a Bangladeshi youth free from illiteracy. Bangladesh, being a third-world developing country, suffers from chronic poverty and illiteracy. In the winter of 2016, Muhammad Jahirul Islam and his friends went to the airport railway station to distribute winter clothes to poor people. Some children ran up to them and said they needed education, not clothes. From that day, he realized the need to create an educational platform for slum children so they could receive equal education. As a result, he founded Ignite Global Foundation in 2016 to provide quality education to underprivileged students. Now, IGF also works on poverty alleviation, inclusive education, health and nutrition, women's empowerment, menstrual health kits, clean drinking water and sanitation, blood donation, youth development, human rights, and the eco-environment.

MISSION

To foster sustainable development and empower communities nationwide through quality education, sustainable livelihoods, disaster resilience, holistic youth development, and gender equality.

VISION

Ignite Global Foundation dreams of creating a society where underprivileged children have access to quality education, as well as marginalized people have access to sustainable livelihoods and the resources to thrive.

ORGANIZATION

OVERVIEW

Founded in 2016 and headquartered in Dhaka, Bangladesh, Ignite Global Foundation (IGF) is a pioneering non-profit dedicated to sustainable development and empowering marginalized communities. Our mission focuses on inclusive education, human and child rights advocacy, and community empowerment to achieve sustainable development goals. Grounded in values of accountability, inclusivity, and integrity, we prioritize transparency, measurable outcomes, and responsible resource management. Ignite Global Foundation has its core three programs, including Education, Youth Development, and Disaster Response and Resilience. Along with these programs, IGF has multiple projects such as Project Shabolombi, Inclusive Education, Project Nirman, Project Tripty, Project Onno, Project Qurban,i and so on.

IGF's impactful initiatives include inclusive education programs for underprivileged and special-needs children, fostering equality and inclusion. Recognized globally, we've received prestigious awards like The Diana Award and the UN Best Volunteer Group Award, the ILA 30 Under 30 Award, VSO Best Volunteer Group Award. Through the activities, IGF addresses critical issues such as poverty alleviation, gender equality, and sustainable livelihoods.

IGF's key departments, including Project Management, Media and Communication, Grants Management, Finance, and Monitoring & Evaluation, ensure operational success and strategic impact. Supported by a dedicated team, robust infrastructure, and collaborative partnerships, IGF continues to innovate and drive positive change in youth development, human rights advocacy, and community empowerment.

INTRODUCTION

Ignite Global Foundation (IGF) has continued its mission to empower communities, support education, and respond to crises in 2023. Through collaborative efforts with local and international partners, IGF has made significant strides in education, disaster response, youth development, and community support. This report highlights the key activities and achievements of IGF in 2023.

IGNITE SCHOOL: INCLUSIVE EDUCATION

Ignite School continued its commitment to inclusive, quality education by integrating academic excellence with co-curricular engagement. A range of events and activities were organized throughout the year to nurture creativity, foster patriotism, and promote the physical and mental well-being of students.

Annual Sports Day

A vibrant three-day Sports Day was held on the school premises, where students actively participated in various athletic events. The celebration encouraged teamwork, discipline, and sportsmanship. Winners were honored with gifts and recognition in front of their peers, fostering motivation and a spirit of healthy competition.

Study Tour to Fantasy Kingdom

As part of experiential education, Ignite School organized a study tour to Fantasy Kingdom, providing students with an opportunity to learn through recreation. The tour helped strengthen student bonding, improve social skills, and create joyful memories beyond the classroom.

Inter-School Drawing Competition

An inter-school drawing competition was hosted by IGF, bringing together students from Ignite School and neighboring institutions. The event served as a creative platform for young participants to express ideas through art. Students showcased talent across a range of themes, and top performers were awarded certificates and prizes.

Science Fair – BRAC University

Ignite School students achieved a significant milestone by becoming champions at the Science Fair organized by It's Humanity Foundation at BRAC University. Their project, presented under the theme The Joy of Innovation, reflected the students' creativity and problem-solving skills in addressing real-life community issues through science.

National and International Day Observances

The school observed several significant national and international days to instill values of patriotism, cultural heritage, and global citizenship.

- On International Mother Language Day, students paid tribute through poetry, songs, and discussions on the importance of linguistic and cultural identity.
- Independence Day and Victory Day were marked with special assemblies, performances, and student speeches reflecting national pride and historical awareness.
- International Children's Day was celebrated with fun activities, games, and student-led performances, emphasizing children's rights and well-being.

HEALTH CHECK-UP PROGRAM

A health screening program was organized to monitor and support the physical well-being of all students. Medical professionals conducted general check-ups and shared basic health advice with students and guardians, reinforcing the school's focus on holistic student care.

PROJECT SHABOLOMBI: CREATING SUSTAINABLE LIVELIHOODS

IGF took meaningful steps toward poverty alleviation by supporting marginalized families through zakat-based livelihood initiatives. A total of 15 individuals from low-income backgrounds received targeted assistance aimed at helping them become self-reliant and economically stable. The support included the distribution of rickshaws, vans, and sewing machines, and essential tools that enabled the beneficiaries to engage in income-generating activities such as transportation services and tailoring work.

These individuals, many of whom had previously depended on irregular or informal work, were allowed to regain dignity and stability through sustainable livelihoods. The initiative not only provided financial relief but also helped instill a renewed sense of purpose and independence among recipients. By creating pathways for long-term income generation rather than one-time aid, IGF reaffirmed its commitment to building resilient communities through practical, compassionate, and faith-driven social support systems.

DISASTER RESPONSE: STANDING WITH COMMUNITIES IN CRISIS

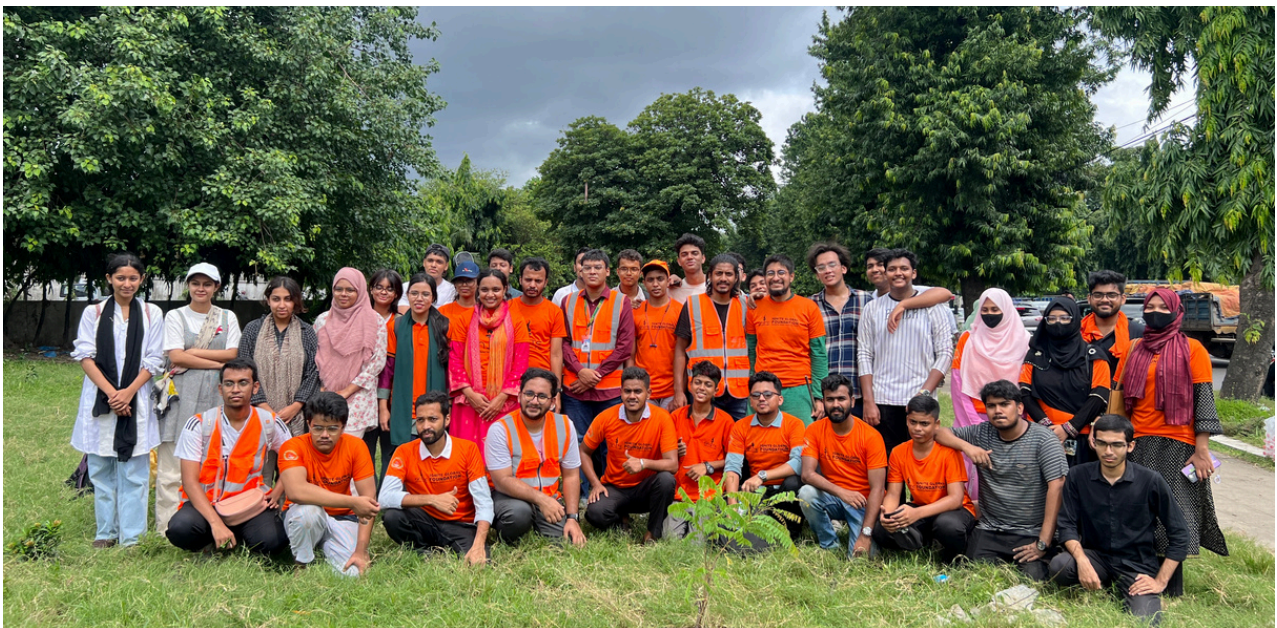

As part of its commitment to disaster resilience and humanitarian support, Ignite Global Foundation successfully implemented an emergency relief initiative during the reporting period. In response to acute community needs arising from crises, the Foundation distributed 1500 food packages along with essential medicines to vulnerable populations. This intervention aimed to alleviate immediate hardship while reinforcing community resilience and well-being in the face of adversity. The initiative reflects the Foundation's ongoing dedication to rapid response, resource mobilization, and equitable aid distribution during times of crisis.

PROJECT NIRMAN: BUILDING SAFE FUTURES THROUGH HOUSING SUPPORT

Under the banner of Project Nirman, IGF launched 12 housing projects aimed at providing safe and secure shelter to individuals and families vulnerable to or affected by natural disasters, conflict, and other calamities in rural areas. This initiative focused on addressing the urgent housing needs of the most at-risk populations by constructing durable homes that offer protection, dignity, and a foundation for stability. Through these efforts, IGF reaffirmed its commitment to building resilience in disaster-prone communities by ensuring that shelter, a fundamental human need, is met with compassion, safety, and sustainability.

PROJECT PRERONA: PROMOTING DIGNITY THROUGH MENSTRUAL HEALTH SUPPORT

Under Project Prerona, IGF distributed sanitary pads to 145 women from marginalized communities, addressing a critical but often overlooked aspect of women's health and hygiene. This initiative aimed to break the stigma surrounding menstruation and ensure that women have access to basic menstrual hygiene products. By promoting awareness and providing practical support, Project Prerona contributed to improving the dignity, health, and confidence of underserved women, empowering them to manage their menstrual health safely and respectfully.

YOUTH DEVELOPMENT: BUILDING FUTURE LEADERS

Ignite Global Foundation launched the Youth Development Training Program under the theme "Building Future Leaders," engaging 250 young volunteers from diverse backgrounds. The program focused on developing key competencies in leadership, communication, and civic responsibility. Through interactive workshops and mentorship sessions, participants were empowered to take initiative, build confidence, and contribute meaningfully to their communities. This initiative reflects the Foundation's dedication to cultivating a proactive and socially aware generation prepared to drive positive change.

PROJECT NIRAMOY: PROMOTING CHILD HEALTH AND WELL-BEING

General Health Checkups

Under Project Niramoy, 155 underprivileged children received comprehensive health screenings aimed at identifying common illnesses and developmental concerns. These checkups played a crucial role in early detection and provided valuable insights into the general health status of the children.

Dental Checkups and Oral Health Awareness

As part of the initiative, the same group of 155 children underwent dental checkups conducted by qualified professionals. In addition to the examinations, children were provided with guidance on proper oral hygiene practices to foster lifelong healthy habits.

Distribution of Primary Medicines

To ensure immediate support following the health and dental assessments, essential primary medicines were distributed to all 155 children. This step was vital in addressing minor but common health conditions and reducing the risk of preventable complications.

PROJECT QURBANI

As part of Project Qurbani, Ignite Global Foundation facilitated the slaughter of three cows during the Eid al-Adha observance, ensuring the distribution of fresh meat among 500 underprivileged families. This initiative aimed to uphold the spirit of compassion and community sharing by providing nutritious food to those who often lack access to protein-rich meals. The project not only addressed immediate food insecurity but also fostered inclusivity during a significant religious occasion.

COMMUNITY SUPPORT INITIATIVES

A Gift of Happiness: Eid dresses were distributed among roadside and underserved individuals, allowing them to celebrate the occasion with dignity and joy.

Winter Gift: 1,500 blankets and winter clothes were distributed to families in need, providing warmth and protection during the cold season.

Tree Plantation Drive: 500 trees were planted as part of IGF's environmental sustainability initiative, promoting ecological awareness and long-term environmental responsibility.

Annual Iftar Program: 3,000 iftar meals were distributed during the month of Ramadan, fostering a sense of community and supporting those fasting in underserved areas.

CONCLUSION

In 2023, Ignite Global Foundation continued to advance its mission of empowering underprivileged communities, promoting inclusive education, and strengthening social resilience across Bangladesh. Through impactful programs such as Ignite School, Project Niramoy, Project Shabolombi, Project Nirman, and Project Prerona, the Foundation addressed critical issues in health, education, livelihood, and dignity. Community-focused initiatives, including disaster response, Qurbani distribution, environmental sustainability, and youth leadership development, further underscored IGF's holistic approach to social change. Each effort was guided by the Foundation's unwavering commitment to equity, compassion, and sustainable impact. With the support of dedicated volunteers, strategic partnerships, and a growing network of changemakers, IGF enters the coming year with renewed purpose to build a more just, inclusive, and resilient society.
